Clinic

Not provided

What I want help with

Prepare questions for a routine check-up.

My first question

What information should we bring to the appointment?

What happened, and when

Your order and wording; dates may be approximate.

When (as entered)

What I noticed

No observations entered; this does not confirm absence of signs.

Current medicines / products

Copied from your records; the clinic must confirm the details.

Medicine / product

Dose as recorded

Frequency as recorded

Medication history not provided. This does not mean none.

At home / visit context

Home observations not provided.

Not observed / unknown: Body shape, Appetite, Drinking, Energy, Weight trend

In the consultation

Milo / record the clinic's answers and agreed next steps.

Bring along

- ☐ Existing health and vaccine records.
- ☐ Any food or product labels you want to discuss.
- ☐ Dated notes or photos you already have.

Questions I want to cover

Add your questions before the visit, or write them here.

Optional discussion prompts

Which routine-care items should we review today? / What should I measure or record between visits? / When should we arrange the next follow-up?

Answers / what the veterinarian explained

Plan agreed with the clinic - what to do and when

Medicine instructions to confirm

Changes that mean I should call

Follow-up / tests / how to get results

Clinic contact / after-hours contact

Write by hand, or fill fields in a compatible PDF reader and save a copy.

Record medicine details from the clinic. This sheet does not prescribe or check doses.
